University Mission Statement

The University of Maryland is the flagship of the state's higher education system and a prestigious public research university, known for academic excellence in undergraduate and graduate education. The faculty is at the leading edge of scientific, technological, intellectual, and artistic discovery, while remaining focused on teaching. Providing the broadest range of highly challenging programs for the most talented students, the University of Maryland's state-of-the-art facilities and diverse campus community offer an ideal educational atmosphere and a location connecting faculty and students to unlimited resources for scholarly exploration and practical experience. The university also serves the state and region through application of research and expertise to address societal issues and promote economic growth.

UNIVERSITY OF MARYLAND

Track and Field Coach Bill Goodman

13th season • Maryland '75

The 1999 ACC women's indoor coach of the year, Bill Goodman has spent the past 25 years involved with Maryland track and field. He took over as the head coach of the Maryland teams in 1988. During his tenure as the head coach and as an assistant (1976-83), Goodman has coached 14 All-Americans, 32 ACC champions, and 37 All-ACC performers.

As a student-athlete at Maryland, Goodman excelled both on and off the track. As a four-year letterwinner, he was no stranger to success in athletics. In 1975 he was the Intercollegiate Association of Amateur Athletes of America (IC4A) triple jump champion. He also qualified for the NCAA Championships in 1973, '74, and '75.

Off the track, Goodman enjoyed academic and social prominence during his career at Maryland. He was the vice president of Omicron Delta Kappa, an honorary fraternity representing outstanding academic leadership achievement, from 1973-75. In 1975, he received the Atlantic Coast Conference award for excellence in scholarship and athletics. Goodman was also an honorary inductee in the Golden Key Honor Society.

After graduating from Maryland in 1975, Goodman stayed at the university and became an assistant coach under Frank Costello from 1976-83. Over that time he had the opportunity to coach All-Americans Bob Calhoun (long jump) and Dennis Ivory (triple jump), as well as USA Track and Field qualifier and school long jump record-holder Tamela Penny.

Under Goodman's tutelage, indoor triple jumper Marchelle Payne was a four-time All-American and is considered to be one of America's all-time best at her event. In 1999, Goodman coached Candyce DeLoatch to All-America status in the 400.

In 1983, Goodman took the head-coaching job at nearby Eleanor Roosevelt High School. There he guided the track program to almost immediate success. In 1984, he led the men's team to an indoor state championship. In 1986 he led the women's cross country team to the state championship.

Coach Goodman and his wife, Helen, reside in Frederick, Md., with their two daughters, Shanie and Natalie, as well their dog, Hershey, and cat, Angel. Natalie's godfather is Maryland cross country coach Dan Rincon.

Cross Country Coach Dan Rincon

13th season • Maryland '75

Dan Rincon, who has coached seven All-Atlantic Coast Conference selections and one All-American performer, is in his 13th season as the head cross country coach at the University of Maryland. He is also an assistant coach with the Terps' track and field teams where he handles the distance runners.

Rincon was a highly-decorated runner for the Terps as an undergraduate (1972-75). He earned four varsity letters in cross country and three in track and field. As a senior in 1975, Rincon was an All-American in cross country and the ACC champion in the six-mile run. He held the school record in the two-mile run with a time of 8:49.60 as well as the school record in the 10,000 meter run in a time of 30:04.10. The Maryland graduate led the Terps to a third-place finish at the ACC cross country championships in 1988.

Rincon earned the Jim Kehoe Award in 1975. The Kehoe Award is presented to the most valuable track athlete in terms of performance, dedication and spirit. He was also a three-time recipient of the Tom Fields Award that is annually presented to the top cross country runner.

Following his graduation from Maryland in 1975, Rincon competed for the USA Adidas National Road Racing team. He qualified for the 1976 Olympic Trials in the marathon event. He won the prestigious D.C. Cherry Blossom 10-mile race in 1977. In 1978, Rincon won the 20,000 meter national championship sponsored by the Road Runner Club of America. Upon his retirement from competition in 1981, he became the coach and manager of the Adidas Mid-Atlantic Road Racing Team, helping four individuals earn berths in the Olympic Trials.

Rincon became the head cross country coach at Eleanor Roosevelt High School in Greenbelt, Md., in 1983. While at Roosevelt, he led the boy's team to five consecutive county championships and the girl's team to three county championships and one state championship. His boy's teams finished as the state championship runner-up twice and his girl's team as the state runner-up once during his tenure.

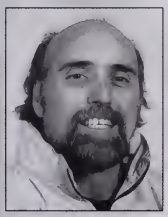
Rincon was inducted into the Delaware Track and Field Hall of Fame in 2000.

Assistant Coaches

Roland Desonier

12th season • C.W. Post '76

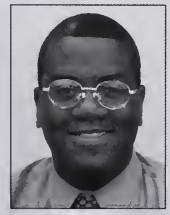
Ronald Desonier is in his 12th year as an assistant coach at the University of Maryland. His primary responsibility is assisting with the throwing events. Desonier graduated from C.W. Post Long Island University in 1976. Over 20 years later, he still holds all records for the hammer, discus and 35lb. weight throws. He was a five time All-American in both indoor and outdoor track. In addition, Desonier placed second in the nation in the hammer and discus throws. In 1989, Desonier was inducted into the C.W. Post Hall of Fame. Before joining the Maryland coaching staff, Desonier coached on the high school level for two years in Long Island.



Donald Thomas

6th year • Erie '90

Donald Thomas is in his sixth year at Maryland with the responsibility of coaching the hurdle and high jump events. In addition, he serves as the recruiting coordinator for the team.



Thomas came to Maryland from Erie Community College, where he assisted in the planning and organization of the track and cross country teams. As an assistant coach at ECC, Thomas helped guide the teams to great success. The men's indoor and outdoor track and field teams won the 1990-93 NJCAA Region 3 Championships, while the women won the NJCAA Region 3 Championship in 1995. During his tenure at ECC, Thomas oversaw five NJCAA Track All-Americans and two NJCAA Cross Country All-Americans.

Thomas earned his associate degree in Recreation Leadership from Erie Community College.

Tuere Rodriguez: TOO-air-ay
Keri Seher: SAY-er
Nakia Serrant: Nuh-KEY-uh Suh-RAHNT

Women's Season Preview

The 2000-2001 edition of the women's track team will look to build and improve upon last year's success. The Terps return five All-ACC performers including one of the top high jumpers in the country, ACC champion **Vanessa Jones**. After finishing third at both the ACC Indoor Championships and the ACC Outdoor Championships a year ago, Jones and a host of sensational sophomores hope to lead the Terps to a conference championship this season.

This year's sophomore class received recognition last year as one of the finest recruiting classes in the nation. Now a year older and more experienced, the group should be ready to take on an even greater role this season.

Leading the sophomore class is **Tia Burley**, an All-ACC performer and school record-holder in the 200 meters. Burley was also a member of the ACC champion 4x400 relay team. Sophomore pole-vaulter **Natalie Dye** also broke a school record in her first year as a Terrapin, shattering the pole vault mark by over 10 inches. In addition, sophomores **Punnie Chittchang** and **Lynn Harris** immediately became the team's top jumpers, as both qualified for the Eastern Colleges Athletic Conference (ECAC) Championships in the long jump.

Eight of the Terps' nine seniors are distance runners, and that group will be looked to for leadership. In addition, a quartet of experienced and well-decorated juniors should bolster an otherwise young squad: **Thema Napier** set the school record in the 100 hurdles last year, and was also a member of the 4x400 relay team that established a new Maryland best a year ago; **Ruth Kura** is the 1999 ACC champion and school record-holder in the weight throw; **Tracy Ojeniyi** was an All-ACC selection a year ago and remains one of the top throwers on the team; and **Amber Stanley** contributes effectively in many disciplines, including the heptathlon.

Throws

Ojeniyi and Kura will combine with sophomores **Labelle Hillgrove** and **Angelina Rosamilia** to provide the impact in the throwing events. Last year, Ojeniyi had the team's top distance in the shot put during both the indoor and outdoor seasons while Kura had the top mark in the weight throw.

Rosamilia had the best toss in the javelin last season. Hillgrove contributed regularly in several events, notching the team's best toss in the discus and second-best in the shot put. Amber Stanley could also be a factor, as she recorded the team's second best distance in the javelin a year ago.

Labelle Hillgrove

Jumps

Vanessa Jones enters 2000-2001 as defending ACC outdoor champion in the high jump. She finished 12th at the NCAA Championships during the indoor season and 17th at the NCAA outdoor championships.

Lynn Harris and **Punnie Chittchang** combine to form a potent 1-2 punch in the long jump and triple jump. Chittchang had the team's best mark in the long jump during the indoor season, but Harris had the top distance in the long jump during the outdoor season. Chittchang held the team's best mark in the triple jump during both the indoor and outdoor seasons.

Sophomore **Heather Houston** also figures to make an impact in the long jump, while sophomore **Abigail Zem** should contribute in the triple jump. **Natalie Dye**, the school record-holder in both the indoor and outdoor pole vault, is one of the best in the ACC at her event.

Sprints

Tia Burley should be most prominent among the sprinters, as she appears to be the Terps' top threat in the 200 and the 400. Burley was equally effective at both distances, setting the indoor school record in the 200 and the indoor school record as a member of the 4x400 relay team.

Joining her will be sophomore **Rashida Twiggs**, as well as twin sisters **Dionne** and **Devenn Hamilton**. Last year, Twiggs had the team's second-fastest time in the 100, the third-fastest time in the 200, and fourth-fastest time in both the 55 and the 60. The Hamilton sisters will contribute more in the intermediate distances such as the 400.

Hurdles

Thema Napier is clearly the top hurdler on the team, as she recorded the team's top times in the 55 hurdles, 60 hurdles, 100 hurdles, and 400 hurdles. She holds the Maryland record in both the 100 hurdles and the 400 hurdles.

Joining her is **Amber Stanley**, who clocked the team's second-fastest times in the 55 hurdles, 60 hurdles, and the 100 hurdles. Burley is also capable of being a factor in the 400 hurdles, as she recorded a time of 1:01.19 at the Alabama Relays last year.

Distance

Most of the team's experience is concentrated among the distance runners, with all but one of the nine seniors coming from this group. Seniors **Meghan White**, **Kelly Crowley**, **Rebecca Mack**, and twin sisters **Lisa** and **Tami DeGrechie** figure to play the most prominent roles, along with sophomore **Kristen Lubas** and senior **Monique Berry**.

White had the team's top times in the 1000, 1500, 3000, and the mile. Mack had the fastest time in the 800.

Tracy Ojeniyi

Lynn Harris

Meghan White

Women's Profiles

Rekha Ayalur

Junior
Alexandria, Va./Thomas A. Edison
Event: Distance • Major: Biology

As a Sophomore: Lettered in cross country.
As a Freshman: Attended Virginia Tech University.
Before Maryland: Two-time letterwinner in cross country and three-time letterwinner in track … team captain during junior and senior years … first-team all-district as member of 4x800 relay team … all-county honorable mention selection in the 1000 and 1600 during senior year … participated in the Junior Olympics in the 1500 in 1997.
Personal: Rekha Aghoram Ayalur … born April 8, 1980 … daughter of Bhagyam and Aghoram Ayalur.

Monique Berry

Junior
Andover, Conn./RHAM
Event: Distance • Major: Business

As a Sophomore: Took third in the 5000 at the Terrapin Invitational … placed fifth in the 5000 at the Maryland Invitational.
As a Freshman: Lettered in cross country.
Before Maryland: Earned three varsity letters in cross country and track … team captain and MVP during her senior year … earned all-conference, all-state, and All-New England honors during her high school career.
Personal: Monique M. Berry … born Oct. 3, 1980 … daughter of Marita and Kevin Berry.

Personal Bests

5000	19:58.64

Marjorie Bollinger

Junior
Timonium, Md./Dulaney
Event: Distance • Major: Marine Biology

As a Sophomore: Placed 16th in the 800 and 17th in the 1500 at the Terrapin Invitational.
As a Freshman: Lettered in cross country.
Before Maryland: four-year letterwinner in cross country and track … senior co-captain … helped lead cross country team to four consecutive state championships … earned All-Met cross country honors from the Baltimore Sun as a senior.

Personal Bests

5000	20:09.07

Aranda Brown

Sophomore
Schenectady, N.Y./Schenectady
Event: Throws • Major: Zoology

As a Freshman: Finished fifth in the hammer throw at the Terrapin Invitational … finished sixth in the hammer throw at the George Mason Invitational.
Before Maryland: Lettered in track three years and basketball two years … second-team Big-10 all-star in the discus as a junior … first-team Big-10 all-star in the discus as a senior … school record-holder in the discus (113-4).
Personal: Aranda Maurisa Brown … born Nov. 7, 1981 … daughter of Arlene and David Brown.

Career Bests

20-Pound Weight	44-6 1/4	Delaware Invitational, 2000
Hammer	133-2	ACC Outdoor Championships, 2000

Tia Burley

Sophomore
Baltimore, Md./Western
Event: Sprints, Hurdles • Major: Aerospace Eng.

Indoor school record-holder in the 200 and member of indoor school record-holding 4x400 relay team … earned All-ACC and All-East honors.
As a Freshman: Made an immediate impact in sprints and hurdles … took fourth-place in the 200 at the ACC Outdoor Championships … ran on 4x400 relay team that took first at the ACC Indoor Championships, provisionally qualified for the NCAA Indoor Championships, placed second at the ACC Outdoor Championships, and took fifth at the ECAC Championships … ran on 4x100 relay team that finished third at the ACC Outdoor Championships and second at the ECAC Championships … finished fifth in the 400 at the ACC Outdoor Championships … took second in the 200 at the ACC Indoor Championships … took first in the 200 at the Maryland Invitational … placed fifth in the 200 at the ECAC Championships … ran 53.7-second lead-off leg to help 4x400 relay team finish fourth at USA Indoor Championships.
Before Maryland: Three-time letterwinner in track … 1998 4A state champion in the 4x400 relay during both the indoor and outdoor seasons … 1999 4A state champion in the 400 and the 300 hurdles … Baltimore Sun All-Met team member … all-state honors in both 1998 and 1999 … 1999 team captain.
Personal: Tia Alberta Burley … born March 12, 1981 … daughter of Louise and Albert Burley.

Career Bests

All-East performer.
As a Sophomore: Finished fourth in the heptathlon at the ACC Outdoor Championships … placed seventh in the heptathlon at the ECAC Championships.
As a Freshman: Finished first at two meets, once in the 55 meter hurdles and once in the 60 hurdles … finished fourth at ACC Outdoor Championships in the heptathlon with a score of 4052 points … recorded team's best time (8.82) in the 60 hurdles at the Delaware Invitational … showed extraordinary versatility by competing in 10 different events.
Before Maryland: Attended Saratoga Springs High in New York where she was a four-year letterwinner in track … also played one year of soccer … ran hurdles, relays and participated in the high jump … two-time team captain … guided team to a state championship, and won four individual state titles … twice won the state in the 100 hurdles, and twice in the 55 hurdles … section record holder in 55 and 100 hurdles … best marks were 8.19 in 55 hurdles, 14.1 in 100 hurdles, 5-3 in the high jump and 12.0 in the 100.
Personal: Amber Ta'mar Stanley … born March 8, 1980 … daughter of Dora Lee and William R. Stanley.

Career Bests

55 Hurdles	8.35	Bucknell Invitational, 1999
60 Hurdles	8.82	Delaware Invitational, 1999
100 Hurdles	14.24	ACC Outdoor Championships, 2000
High Jump	5-3 1/2	ACC Outdoor Championships, 2000
Heptathlon	4441	ACC Outdoor Championships, 2000

Women's Profiles

Lora Stutzman

Sophomore
Petersburg, N.J./Ocean City
Event: Mid-Distance • Major: Letters & Sciences

As a Freshman: Placed sixth in the discus at the George Mason Invitational … took seventh in the 800 at the Terrapin Invitational.

Before Maryland: Four-year letterwinner … school record-holder in the discus … county champion in the shot put and discus … All-South Jersey team member … third-team all-state in the discus.

Personal: Lora J. Stutzman … born Feb. 19, 1981 … daughter of Janet and David Stutzman.

Career Bests

800	2:21.13	Alabama Relays, 2000
Discus	116-5 1/2	James Madison Invitational, 2000
Heptathlon	3541	ACC Outdoor Championships, 2000

Rashida Twiggs

Sophomore
Blue Bell, Pa./Bishop McDevitt
Event: Sprints • Major: Psychology

All-East performer.

As a Freshman: Ran on 4x100 relay team that finished third at ACC Outdoor Championships and placed second at the ECAC Championships … took second in the 100 at the Terrapin Invitational.

Before Maryland: Four-year letterwinner in track … 1999 state champion in the 55 meters … Pennsylvania Catholic League record in the 55 and 100 … all-state honors.

Personal: Rashida Lavenia Twiggs … born April 23, 1981 … daughter of Lynn Sanders and Rudolph Twiggs.

Career Bests

55	7.27	Navy Invitational, 2000
100	12.01	Terrapin Invitational, 2000

Meghan White

Junior
Cockeysville, Md./Dulaney
Event: Distance • Major: Kinesiology

Transferred from North Carolina after sophomore season.

As a Sophomore: Placed eighth in the mile at the ACC Indoor Championships … member of distance medley relay team that took sixth at the ACC Indoor Championships … finished second in both the 800 and the 1500 at the Maryland Invitational … placed fourth in the 1500 at the Maryland Invitational … ECAC qualifier.

As a Freshman: Member of point-scoring distance medley relay in the 1200 meters.

Before College: Lettered in cross country and track at Maryland's Dulaney High School … third-place finisher at the cross country state championships her senior year … holds record for best time by a Baltimore Country runner in a meet with a time of 2:13 in the 800 meters.

Personal: Meghan Eileen White … born March 2, 1979 … daughter of Patricia and Stanley White … majoring in kinesiology.

Career Bests

1500	4:38.34	Maryland Invitational, 2000
3000	10:03.16	ACC Indoor Championships, 2000

Abigail Zern

Sophomore
West Hartford, Conn./Hall
Event: Jumps • Major: Letters & Sciences

As a Freshman: Placed fifth in the javelin and seventh in the shot put at the Terrapin Invitational … took ninth in the javelin and 10th in the shot put at the Virginia Commonwealth Invitational.

Before Maryland: Lettered in both track and swimming … state champion in the triple jump … all-state in the triple jump in 1999 … all-state in the long jump in 1997

Personal: Abigail Melissa Zern … lists working on a farm as an interest … born Jan. 12, 1981 … daughter of Anne and Howard Zern.

Career Bests

Long Jump	15-9 3/4	Delaware Invitational, 2000
Triple Jump	34-2 1/4	Delaware Invitational, 2000

1999-2000 Women's Season Review

The 1999-2000 edition of the women's track and field team enjoyed a successful season, as a mix of newcomers and experienced contributors helped buoy the squad to its highest ACC finish in over a dozen years.

The Terps finished third at the ACC Indoor Championships, their highest indoor finish since 1988, and third at the ACC Outdoor Championships, their best outdoor finish since 1987. The team's success was thanks, in part, to what proved to be the finest freshman class at Maryland in years. In 1999-2000, 15 newcomers made substantial contributions to the Terps' cause, and three established new all-time Maryland records. In addition, experienced contributors such as **Vanessa Jones**, **Candyce DeLoatch**, and **Stacey Minott** provided a base of leadership to the relatively young squad. All told, 10 Maryland school records were set during the 1999-2000 campaign.

The indoor season was the Terps' most successful in recent memory. At one point during the indoor season the women's team earned a No. 1 ranking in the National Dual Meet Power Rankings, compiled by Idaho State University. The Terps finished the season 14th in the power rankings. In addition, Maryland head coach **Bill Goodman** was named ACC Women's Indoor Track Coach of the Year following a vote by the nine ACC head coaches taken after the Terps' third-place showing at the conference championships.

The indoor season began on Dec. 4 with the Bucknell Invitational, which was not team-scored. The Terps won nine events, four of them won by freshmen, and qualified five athletes for the Eastern Colleges Athletic Conference (ECAC) Championships. The team then had a month layoff before winning the Maryland State Meet on Jan. 8.

Tia Burley

Maryland took 12 of the 16 events in cruising to victory over Navy and Western Maryland. Next was the Delaware Invitational, where strong performances in the sprinting and throwing events carried Maryland to an easy win — its second in a row. The Terps then competed in meets at Virginia Tech, Penn State, and Rhode Island, faring well at all three and qualifying more athletes for postseason competition.

The next meet was the ACC Indoor Championships, where the Maryland stood in fourth place after the first day of competition. The Terps managed to qualify many athletes for the finals of events to be held the second day of competition,

Dionne Hamilton

and used strong performances on day two to jump into the top three. The finish tied the best ever for the Maryland women, also achieved in 1987 and 1988. Five Terps garnered All-ACC honors in individual events (Minott, DeLoatch, Jones, **Tia Burley**, and **Cathy Porter**) and the 4x400 relay team dominated the competition in taking first place by almost five seconds.

Six all-time Maryland records fell during the indoor season: Vanessa Jones in the high jump (5-11 1/2), Stacey Minott in the 60 (7.45), Tia Burley in the 200 (24.18), Candyce DeLoatch in the 400 (53.91), **Natalie Dye** in the pole vault (11-4 1/4), and the 4x400 relay team composed of Burley, DeLoatch, **Dionne Hamilton**, and **Thema Napier** (3:41.51).

Thema Napier

The indoor season bolstered hoped for a successful outdoor season, and the Terps came through by turning in the finest outdoor season in at least a decade. Jones continued her rise to prominence in the ACC, earning a spot in the Olympic Trials and a provisional NCAA qualifying bid. Several freshmen continued to gain experience and make contributions, especially in the sprinting and hurdling events. In addition, DeLoatch continued her dominance in the 400, repeatedly validating her place as the best ever to compete in that event for the Maryland women. The outdoor season began with the Virginia Commonwealth Invitational, where the Terps grabbed 10 first-place finishes. Next was the Alabama Relays, which spanned over four days and saw the Terps finish strong to finish sixth overall. The Terps then competed at two consecutive home meets, the Maryland Invitational and the Terrapin Invitational, where the team cruised to victory by a wide margin.

The ACC Championships were next, and the Terps stood in last place after day one of the competition. Strong showings in the finals of several sprinting and throwing events completed an improbable jump to the third spot after the second and final day of competition.

Four more records fell during the outdoor season: Stacey Minott in the 100 (11.51), Thema Napier in the 100 hurdles (13.75), Candyce DeLoatch in the outdoor 200 (23.95), and Natalie Dye in the outdoor pole vault (10-10).

The 1999-2000 season was one of the most successful in recent Maryland track history. The high conference finishes and continually falling school records that last season produced give the Terps reason for optimism entering the 2000-2001 season.

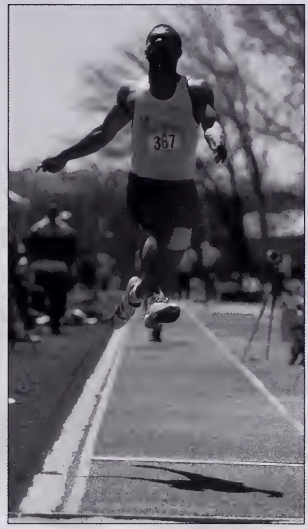
Men's Season Preview

The 2000-2001 men's team will be extremely youthful, with 23 underclassmen and just one senior on the roster. The Terps hope that the injection of new blood into the program will bring about a sense of enthusiasm that will somewhat temper the team's lack of experience. The newcomers will be expected to contribute immediately, as the Terps strive for improvement in the ACC.

As the only senior on the roster, team captain **Cedrick Rogers** will be looked to for leadership and guidance throughout the season. The All-East long-jumper will have a young surrounding cast, but he will be aided by the presence of four accomplished juniors who have each proven to be top-notch performers: **Dontae Bugg**, a four-time IC4A qualifier, and **Phillip Barrett, Jr.** are the top two hurdlers on the team; **Dave Benaderet** is a regular contributor in the sprinting events; and **James Gondak** has moved into fifth place on the list of all-time best performances in the hammer throw.

In addition, junior transfer **Nathyia Jackson** should make an immediate impact in several hurdling and jumping events. The six upperclassmen will try to minimize the growing pains of the rest of the squad – a host of freshmen and sophomores.

The Terps open the indoor season at Bucknell on Dec. 2 before a home meet at the Prince George's Complex in Landover, Md. on Jan. 7. Next are meets at Delaware, Kent State, Penn State, and George Mason. On Feb. 16-17 Maryland will take part in the ACC Indoor Championships, to be held in Blacksburg, Va. The conference meet is followed by the Intercollegiate Association of Amateur Athletes of America (IC4A) Championships, and then the NCAA Championships.



Cedrick Rogers

The outdoor season progresses in a similar way, with the exception of the ACC Outdoor Championships, which are held in the middle of the season. The Terps will travel to Orlando, Fla., for the competition, which is to be held in Disney World.

Sprints

Dontae Bugg and Phillip Barrett, Jr. are the team's top returning sprinters. Newcomer Nathyia Jackson will help here as well.

Dave Benaderet's specialty is the 400, an event in which he was one of Maryland's top three contributors a year ago. Sophomore **Derrick Hill** hopes to continue to progress in the 400 as well, and freshmen **Toby Gershon** and **Harold Manning** will look to compete immediately.

Hurdles

Bugg and Barrett enter the season as the most effective hurdlers on the Terps' roster. Bugg held the top mark in the 55 hurdles, the 60 hurdles, and the 100 hurdles last year. Barrett was second on each of those lists. Nathyia Jackson, as well as freshmen Daniel Hawthorn and Marty Kelly will look to contribute too.

Distance

The distance runners are led by a trio of sophomores – **Zack Webb**, **Mike Prada**, and Chris Ade. Webb recorded the top time in the 800 and 1500 last season. Ade had the best mark in the 1000, while Prada held the best time in the 5000.

Also contributing will be sophomore **Andrew Langan**, who had the team's top time in the 3000 steeplechase, and freshmen **Thomas Anderson**, **Jason Lufkin**, and **Jeremy Ruff**.

Dontae Bugg

Throws

Gondak and Collins should be the major contributors in the throwing events. Gondak had the team's top tosses in the hammer and the weight throw. Collins had the second-best distance in the discus and the third-best mark in both the hammer and the shot put.

Jumps

Rogers, one of the top long jumpers in the ACC, finished first at both of Maryland's home meets and in the top five at three other meets during the outdoor season. He moved into eighth place on the all-time school long jump list, improving his career best to 24-11.

A pair of freshmen will look to make an impact in other jumping events. **Brian Misar** will contribute in the high jump, while **Ian Hoffman** will help at pole vault. Also, Nathyia Jackson will contribute in the long jump. Jackson's personal best in that event is 23-7.

Sophomore
Lansdale, Pa./North Penn
Event: Distance

As a Freshman: Contributed in distance events throughout indoor and outdoor seasons.
Before Maryland: Attended North Penn High School in Lansdale, Pa. … lettered in cross country and track all four years … was member of 1998 and 1999 outdoor state champion 4x800 relay team … was member of 1999 indoor state champion 4x800 relay team … placed seventh at cross country state championships as a senior.
Personal: Zack E. Webb … born March 16, 1981 … son of Deborah and Richard Webb … majoring in computer science … has two brothers: Nathan (16) and Samuel (9).

Noam Whitman

Freshman
Bryn Mawr, Pa./Akiba Hebrew Academy
Event: 400, 800• Major: Mechanical Engineering

Before Maryland: Three-year letterwinner in cross country.
Personal: Noam H. Whitman … born Oct. 2, 1981 … son of Rachel and Alan Whitman.

Anthony Wilson

Senior
Westbury, N.Y./Westbury
Event: High Jump • Major: Math

Before Maryland: Lettered in basketball, tennis, and track … most valuable track athlete as a senior.
Personal: Anthony Mark Wilson … born Nov. 7, 1978 … founded Multicultural Math Society … son of Beverly and Donhue Wilson.

1999-2000 Men's Season Review

The 1999-2000 season was another step in the right direction for the men's track team, as a youthful squad gave the Terps reason for optimism in the years to come. Despite the team's ninth-place finish at the ACC Indoor Championships and the ACC Outdoor Championships, progress was made in many areas of the Maryland program.

In general, the men's team performed better than its conference finish would indicate. The Terps were competitive throughout the season as a team, and several individual performances secured a spot in Maryland track history. **John Carr** recorded the fourth-fastest time in team history in the 100 meters, **Jason Joubert** notched the fifth-fastest time in Terps' history in the 400 hurdles, **James Gondak** had the fifth-best hammer throw in Maryland history, and **Cedrick Rogers** moved into eighth place on the school's all-time long jump list.

Carr was the team's top sprinter throughout the season, recording the team's top time in the 55, 60, 100, and 200. **Dontae Bugg** was the top short-distance hurdler on the squad, clocking the team's top times in the 55 hurdles, 60 hurdles, and 100 hurdles. The throwers were led by sophomores **Andrew Long** and Gondak, with Gondak recording the top marks in the javelin, hammer, and weight throw, and Long leading the way in the discus and shot put.

The indoor season began at the Bucknell Invitational, and the Terps were led by Carr's victories in the 55 and the 200. In addition, freshman **Derrick Hill** made an immediate impact for the Terps, taking first in the 400. The team then traveled to Delaware, where Joubert's victory in the 400 and second-place finishes from Bugg, Long, and Gondak lifted Maryland to a third-place finish. The following competition at Virginia Tech featured strong performances from Carr, Bugg, and Rogers. The Terps placed fourth at Rhode Island the week after that, as Rogers won the long jump competition by more than two feet.

The team had a solid second day of competition at the ACC Indoor Championships, as the 4x400 relay team took fifth place to record the Terps' top performance at the meet. In addition, **Phillip Barrett** and Gondak earned top 10 finishes for Maryland, but the team wasn't able to gain enough ground on its conference opponents.

Dave Benaderet

Highlighting the outdoor season, the men's track team placed second at the Terrapin Invitational, fourth at the Maryland Invitational, and had six athletes qualify for the Intercollegiate Association of Amateur Athletes of America (IC4A) Championships at Princeton University.

The outdoor season started with a promising showing at Virginia Commonwealth, where four Terps claimed victories. Carr won the 200, Joubert took the 400 hurdles, Barrett won the 110 hurdles, and Long finished first in the shot put. Joubert, Rogers, and Gondak all claimed top-10 finishes the following week at the Alabama Relays. Next were the Terps' two home meets, the Maryland Invitational and the Terrapin Invitational, which each saw the men's team turn in some of its best performances of the season. Maryland men captured eight events at the first home meet and five at the second in finishing second and fourth, respectively.

Cedrick Rogers

Senior John Carr placed sixth in the 100 in a time of 10.96 to earn the Terps' top individual finish at the ACC Outdoor Championships as the team finished in ninth place. The 4x400 relay team took fifth in a time of 3:15.00, while the 4x100 relay team finished sixth in a mark of 42.55.

Following the conference championships, the men's team traveled to Florida State in an attempt to qualify athletes for IC4A competition. Joubert shattered his personal record in the 400 hurdles, clocking a time of 51.54 at the meet. In addition, Carr and Rogers each took third place in their respective events. At the IC4A Championships, Carr took eighth in the 100.

The 1999-2000 campaign featured a young team showing promise for the future. The Terps were competitive and several standout individual performances by young athletes give reason for hopefulness in the upcoming season.

A Salute To Hall of Famer James Kehoe

Former Maryland athletic director, track coach and sprinter James "Jim" Kehoe was inducted into the United States Track Coaches Hall of Fame during ceremonies Dec. 5, 1998 at the annual USTCA convention in Orlando, Fla.

Kehoe is one of five former coaches to be inducted in 1998. Others include Bill Dellinger (Oregon), Joe Newton (York High School), Tom Tellez (Houston) and Stan Wright (Texas Southern).

Kehoe completed over 39 years at Maryland, announcing his retirement in 1978 after serving as the Terrapins' athletic director since September 1969. During his tenure as the Terps' top administrator, he spearheaded a nine-year run that produced 40 Atlantic Coast Conference team championships, as compared to just 24 by runner-up North Carolina. He took over an athletic program that operated a $1.5 million budget with 12 varsity sports, and retired while leaving behind a program operating on a $3 million budget with 23 varsity teams. Revenue-producing sports were particularly successful, with football, men's and women's basketball, and lacrosse teams annually representing Maryland in NCAA championship competition and numerous football bowl games.

Kehoe's legacy, however, was built largely upon his background first as an athlete, and later a Terrapin coach. After 18 months of military service in the South Pacific where he earned five service medals and a bronze star, he returned to his alma mater where he would guide the Terrapin track program to 48 Southern Conference and ACC conference titles. His teams captured all but one of the ACC indoor and outdoor championships during his 16 years in the league. He also produced eight cross country titles.

He graduated from Bel Air High School and attended the University of Maryland where he was undefeated in dual meet competition as an athlete. A star half-miler in high school, he set Terrapin school records in the two-mile and the half-mile. His half-mile mark of 1:50.7 remained unbroken for 23 years. Kehoe graduated from the university in 1940, and in 1942, following a brief stint as a high school teacher and coach, began military service in World War II.

Leading the Way into the 21st Century

- *A Carnegie Research-I University*
- *Member, Assoc. of American Universities (AAU)*
- *Flagship of the University System of Maryland*
- *NCAA Division I Athletics*

"Strive for clarity, but accept and understand ambiguity."

That phrase captures one way in which an educated person approaches the world and its challenges. Students who graduate from the University of Maryland have been exposed to the tools that allow them to put that perspective to work. Imparting such a perspective may be an ambitious project for undergraduate education, but to aim for anything less would be unworthy of a great university's goals for its students. Twelve years ago, Promises to Keep, a plan for undergraduate education at Maryland, articulated those goals so eloquently we repeat them here.

Undergraduate education at Maryland "aims to provide students with a sense of identity and purpose, a concern for others, a sense of responsibility for the quality of life around them, a continuing eagerness for knowledge and understanding, and a foundation for a lifetime of personal enrichment."

As we learn with and from one another, we try to "develop human values," "celebrate tolerance and fairness," "contribute to the social conscience," "monitor and assess private and collective assumptions," and "recognize the glory, tragedy and humor of the human condition." Your years at the University of Maryland can provide you with all the tools you need to accomplish these goals. Students here are "educated to be able to read with perception and pleasure, write and speak with clarity and verve, handle numbers and computation proficiently, reason mathematically, generate clear questions and find probable arguments, reach substantiated conclusions, and accept ambiguity."

And we also hope you enjoy the journey.

University of Maryland

The Campus

The University of Maryland, College Park, is the most comprehensive institution of higher education, research and service in the state. The university offers 100 undergraduate majors, 88 master's programs and 69 doctoral programs in 13 colleges and schools.

The university is one of only 30 public research universities that are members of the prestigious 58-member Association of American Universities. It is classified as a Research-I university by the Carnegie Foundation by virtue of the range of its baccalaureate programs, the amount of federal support received and the number of doctoral degrees awarded each year, sharing that honor with the top research universities in the country.

Among the public universities in the Association of American Universities, Maryland ranks among the top in percentage of African-American undergraduate students. In addition, the university has the largest number of African-Americans and other minority members among its peers.

Flagship Status

In 1988, the University of Maryland, College Park, was designated as the flagship institution for the University System of Maryland. As well as pursuing a serious research mission and continuing its high level of service to the state, the university rededicated itself to providing the highest quality graduate and undergraduate education. Increased undergraduate opportunities for research and individual study; the development of the College Park Scholars Program and the expansion of the University Honors Program; the genesis of Honors Humanities and Gemstone; the creation of CORE, the general education program; and the establishment of the Center for Teaching Excellence all affirmed the legislature's designation of flagship.

Libraries

Seven libraries make up the University of Maryland library system: McKeldin (main) Library, Architecture Library, Art Library, Engineering and Physical Sciences Library, Hornbake Library, Performing Arts Library, White Memorial (Chemistry) Library.

These libraries constitute the largest university research library institution in the Washington metropolitan area, providing vital resources to researchers, visiting scholars, and businesses throughout the region. The libraries' holdings include more than 2.5 million volumes, 24,000 subscriptions to periodicals and nearly 5 million items available in microfilm format.

Research

Opportunities for conducting research abound at the University of Maryland, College Park, and in the surrounding area, both for faculty to advance their own expertise and bring their insights into the classroom, and for students to begin their exploration of their special interests with practical experience. On campus, special facilities and a number of organized research centers, bureaus, and institutes promote the acquisition and analysis of new knowledge in the arts, sciences and applied fields.

The university's enviable location — just nine miles from downtown Washington, D.C., and approximately 30 miles from both Baltimore and Annapolis — enhances the research of its faculty and students by providing access to some of the finest libraries and research centers in the country.

Service

Programs of public service are central to the overall mission of the university. The philosophy is reflected in the wide array of programs and initiatives that benefit the state's business, agriculture and education communities.

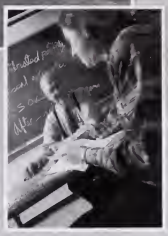
With more than 90 high technology firms in the three-county area of Montgomery, Prince George's and Frederick counties, the university has found abundant opportunity to extend its business and technology outreach programs to the region. Many of these programs are part of the Engineering Research Center, which operates the Technology Advancement Program and the Maryland Industrial Partnerships, programs designed to provide Maryland entrepreneurs and small businesses with research facilities, technical assistance, administrative support, and access to technology that will advance their economic base.

The Institute for Systems Research has formed partnerships with major corporations, including Lockheed Martin, Westinghouse, BF Goodrich, Hughes Aircraft and Dupont to apply advanced systems research to solving industry problems in the fields of communications, manufacturing, controls and robotics.

The University of Maryland features a diversity of cultural and recreational activities. Four art galleries, more than 200 annual musical performances and countless dance and theater productions, expose audiences to the broadest range of programs in the arts. And intercollegiate, club and intramural sports provide students of all levels an opportunity to participate as spectators or athletes.

A Wired World

Students at the University of Maryland are part of an academic community that enjoys free access to networked computer resources and facilities that are among the best in the country. Free computer accounts enable users to store class work on a networked server, download classroom support materials and other electronic information from campus networked resources such as inforM, or send electronic mail to faculty, fellow students or friends at other universities.



President C.D. Mote, Jr.

C.D. (Dan) Mote Jr. took office as president in September 1998 with a clear vision for taking the University of Maryland down the home stretch to its destiny as one of America's great research universities.

Mote came to Maryland from the University of California at Berkeley, where he had earned all of his degrees, and where he had served in faculty and administration more than 30 years. He had most recently been vice chancellor for university relations.

In Maryland, he found a university already well on its way to achieving the greatness envisioned when the General Assembly declared it the flagship institution of the University System of Maryland. Mote immediately took a leadership role on the Governor's Task Force on Governance, Coordination and Funding of the University System of Maryland to gain greater autonomy and flexibility for the university to pursue its goals. He followed that by working closely with state leaders to boost university funding for new programs, scholarships and faculty, gaining 10 percent appropriations increases in each of his first two years.

Mote spelled out in his inauguration address his vision of Maryland as a great research university, where teaching and research are "inseparable." In this plan, the faculty creates a culture of excellence that permeates the university, student success is the center of all activity, and the extended Maryland family of alumni and friends grows rich in pride and tradition.

High achievement has been Dan Mote's life, from his student days at the University of California through his years as an outstanding teacher and world-renowned researcher and his leadership of a highly successful capital campaign at Berkeley.

By the end of Mote's second year at Maryland, the university's ongoing capital campaign, Bold Vision • Bright Future, had raised nearly $300 million of a $350 million goal, including such landmark donations as Clarice Smith's $15 million for the Clarice Smith Performing Arts Center and Comcast Corporation's $25 million for the Comcast Center. But Mote has said repeatedly that development and capital campaigns are not principally about raising money.

"They are about the university building relationships, with its alumni and friends of the university through the quality people and quality programs on campus. If we succeed in building authentic relationships, fund-raising happens as easily as the women's lacrosse team scores a goal."

Mote and his wife Patsy live in the President's Residence on the College Park campus. They have two grown children and four grandchildren.

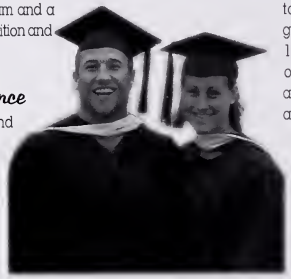
Maryland TERRAPINS

Among The Nation's Best

This is Maryland Athletics

At the University of Maryland, winning is not taken lightly. Like the rich history of all its sports programs, championships are a tradition.

Since the 1950s, Maryland has established itself as one of the most successful athletic programs in the nation. This type of success is no accident; it has been built year-by-year on the achievements of outstanding young men and women who were given the opportunity to excel both on and off the field of play. The victories, the championships and the national acclaim are all ingredients of the Maryland athletic program. Student-athletes who attend Maryland are part of a program and a university which thrives on tradition and excellence.



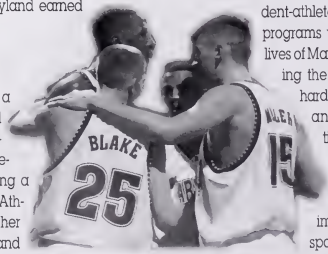
Academic Excellence

The University of Maryland considers intercollegiate athletics an integral part of the collegiate experience. Its existence provides an opportunity for students, faculty, alumni and students to share in the life of intercollegiate athletics.

The Department of Intercollegiate Athletics strives to achieve the same standards of excellence in its athletic program as exist within the university's teaching, research and public service programs. The department embraces the concept that the student-athlete is first and foremost a student, possessing academic abilities, personal interests and ambitions comparable to those of the other members of the student body. Since 1983, 88 percent of freshmen scholarship athletes who completed their eligibility at the University of Maryland earned their degrees.

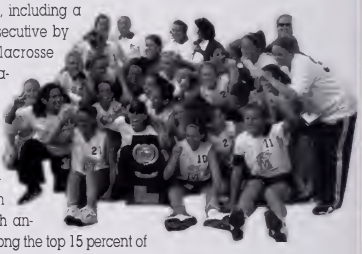
Goals

The great thing about being a Terrapin is the commitment to hard work and dedication. At the University of Maryland the athletic department is dedicated to supporting a well-balanced Division I program. Athletic director Deborah Yow and her dedicated coaches, administrators and staff have re-engineered the department into a responsive and financially sound model — with a clear vision and a determined drive toward national prominence.



Athletic Success

National championships, conference championships, national rankings and postseason play are all a part of the University of Maryland experience. The University of Maryland has established itself as one of the nation's elite athletic programs. The Terrapins have won 15 national championships, including a record six consecutive by the women's lacrosse team. The Terrapins had plenty of reason to celebrate when it came to intercollegiate athletics in 1999-2000, with another finish among the top 15 percent of all schools in the Sears Directors' Cup, which measures the overall athletic achievement in men's and women's sports.



Competition

Wearing the Maryland uniform means playing in front of some of the loudest and most supportive fans in the nation. It means playing against the best teams in the country, in the most prestigious conference in the country, the ACC. It means wearing the school colors with pride. It means doing your best in athletics and academics. It is a unique and special feeling being a Terrapin.

Athletes in the Community

From the media spotlight to the community spotlight, Terrapin student-athletes strengthen the ties of the local community by serving as role models. Community service is a key part of the Terrapins' agenda. Student-athletes support many community programs which help to enrich the lives of Maryland youth while teaching the importance of studying hard and saying "no" to drugs and alcohol. Representatives from the University of Maryland athletic department speak to participants and use their image and the appeal of sports to encourage Maryland children to stay in school, improve their reading and writing skills, and to receive their high school diplomas.

Athletic Director Deborah A. Yow

Dr. Deborah A. Yow is in the seventh year of her outstanding tenure as director of athletics at the University of Maryland … a year in which she also has assumed the presidency of the National Association of Collegiate Directors of Athletics, an organization with a membership of more than 6,100 athletic administrators representing 1,600 colleges and universities in North America and Mexico.

The comprehensive success of Terrapin athletics under Debbie Yow's leadership is a clear and compelling testimony to her values of excellence, teamwork and accountability. Likewise, her election to the presidency of NACDA is an indication of the respect with which Dr. Yow is regarded in intercollegiate athletics and education in the U.S. and Canada.

In October 2000, Yow was named Female Sports Executive of the Year by the editors of Street & Smith's SportsBusiness Journal.

Also as a member of the NCAA Management Council and NCAA Division I Budget Committee, Yow presents a strong voice for excellence and integrity at the highest levels of intercollegiate athletics. In these national roles she has represented the University of Maryland and the Atlantic Coast Conference with a balanced and proactive voice.

Since taking over at Maryland in 1994, she and her staff have:

• Transformed Terrapin athletics into a responsive, goal-oriented organization.
• Balanced all six of the nearly $30 million annual budgets (the first balanced budgets for the Terrapins in 10 years prior to her arrival).
• Greatly enhanced the academic support services provided to student-athletes, with an enviable exhausted eligibility graduation rate of nearly 90 percent during her tenure.
• Led the Terrapins to a national all-sports ranking in the upper 15 percent of all NCAA Division I institutions.
• Reorganized and upgraded marketing and fund-raising efforts on behalf of Terrapin athletics. As a result, private gifts to athletics have increased 135% and corporate sponsorship revenues have increased by 270% during her tenure at Maryland.
• Implemented a strategic management model.
• Paid off approximately $7 million in operating debt accrued before her arrival in 1994.
• Developed a comprehensive Internet strategy with management, marketing and fundraising applications.
• Significantly improved customer care in every area.

Maryland athletic director Deborah A. Yow took over as president of the National Association of Collegiate Directors of Athletics in July 2000.

The Maryland Department of Athletics has made remarkable progress under Yow's leadership. Regarding the many achievements of Terrapin athletics over the past six years, Dr. Yow says, "We are pleased, but we are not satisfied … our vision is to be one of the top 10 programs in the nation consistently … we see no reason to settle for less."

Yow is known for her goal-oriented and proactive management style. She consistently inspires and challenges those around her to "raise our sights and sharpen our tools … to work hard and work smart … to recognize that our only limitations are those that we place upon ourselves." As a manager and leader, she clearly models these principles. In 1999, she was singled out by Street & Smith's SportsBusiness Journal as one of the leading athletic administrators in the U.S.

A former basketball coach, she began her coaching career at the high school level in North Carolina before taking over as head women's coach at the University of Kentucky in 1976. She also achieved an outstanding coaching record as head coach at the University of Florida. She later moved into athletic administration at the University of Florida and the University of North Carolina-Greensboro, followed by a highly successful tenure as A.D. at Saint Louis University.

She has authored numerous articles and books on athletics, management and human behavior, and is a respected leader in intercollegiate athletics in the United States.

Summing up the entire Terrapin athletic program, Yow recently observed, "We have the finest student-athletes, coaches, support staff and administrative team in America. It is because of their courage, hard work and cooperative spirit that we now have a strong, viable athletic program. I am immensely proud of each of them. I am equally proud of our Terrapin fans who buy tickets and our Terrapin Club members who faithfully support the Maryland athletic program with their donations for scholarships, and the Maryland Educational Foundation and M Club members who serve and give liberally. We have a great Terrapin family. That's the foundation for all of our successes … and the basis for our bright future."

National Successes

The Terps enjoyed across-the-board success in 1999-2000, with the following varsity programs earning Top 30 rankings at one time or another during their respective seasons of competition, and two teams capturing national championships (field hockey, women's lacrosse).

Basketball (Men's)
Football
Lacrosse (Men's)
Lacrosse (Women's)
Field Hockey
Golf
Gymnastics
Indoor Track (Women's)
Outdoor Track (Women's)
Soccer (Men's)
Soccer (Women's)

The 1999 championship field hockey team

Maryland's Colleges and Schools

College of Agriculture and Natural Resources

The College of Agriculture and Natural Resources offers a variety of academic programs that apply science, management, design, and engineering to improve the world in which we live and work. Feeding the world population, developing scientifically-based land use practices and policies, understanding animal and plant biology, improving nutrition and its effects on human health, and profitably managing farms and agribusinesses in harmony with ecosystems are all vital concerns of the college.

School of Architecture

The School of Architecture offers a four-year undergraduate program leading to the bachelor of science degree in architecture, and a graduate program leading to the professional master of architecture. The undergraduate major in architecture is designed to minimize the time required to complete the curriculum leading to the professional degree. Students receive rigorous and comprehensive instruction from a faculty whose members are active in professional practice or research. Many faculty members have distinguished themselves across the professional spectrum and represent different approaches to architectural design. The B.S. degree in architecture will qualify graduates to pursue a career in any number of fields, such as construction, real estate development, public administration, or historic preservation, or to continue in graduate work in professional fields such as architecture, urban planning, or law.

College of Arts and Humanities

The College of Arts and Humanities embraces a heterogeneous group of disciplines, all of which value the development of critical thinking, fluent expression in writing and speech, sensitivity to ethical and aesthetic standards, and a complex understanding of history and culture. Preparation provides valuable background for careers in a broad range of fields.

College of Behavioral and Social Sciences

The College of Behavioral and Social Sciences is comprised of a diverse group of disciplines and fields of study all of which emphasize a broad liberal arts education as the foundation for understanding the environmental, social and cultural forces that shape our world. Disciplines in the behavioral and social sciences use approaches that range from the scientific to the philosophical, from the experimental to the theoretical.

Robert H. Smith School of Business

The Robert H. Smith School of Business recognizes the importance of education in business and management to economic, social, and professional development through profit and non-profit organizations at the local, regional, national and international levels. The faculty are scholars, teachers, and professional leaders with a commitment to superior education in business and management, specializing in accounting, finance, decision and information sciences, management science and statistics, management and organization, marketing, logistics and transportation, and business and public policy.

College of Computer, Mathematical, and Physical Sciences

The College of Computer, Mathematical, and Physical Sciences contributes very substantially and effectively to the research activities of the University of Maryland. This college is like a technical institute within a large university. Students majoring in any one of the disciplines encompassed by the college have the opportunity of obtaining an outstanding education in their field.

College of Education

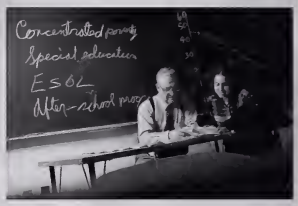
The College of Education is a professional college committed to advancing the science and art of teaching/learning, including the practices and processes which occur from infancy through adulthood in both school and non-school settings. The college's mission is to provide preparation for current and future teachers, counselors, administrators, educational specialists, and other related educational personnel, and to create and disseminate the knowledge needed by professionals and policy makers in education and related fields.

A. James Clark School of Engineering

The mission of the Clark School of Engineering is to provide quality engineering education, with sufficient scope to include both fundamental and specialized engineering training, so that graduates are prepared to serve the current and emerging needs of society. In addition to its teaching role, the school feels a related responsibility to conduct strong research programs that contribute to the advancement of knowledge.

College of Health and Human Performance

The College of Health and Human Performance provides preparation leading to the bachelor of science degree in the following professional areas: physical education (K-12), health education (school and community), and family studies. The college also offers curricula in kinesiological sciences and safety education. In addition, each department offers a wide variety of courses for all university students.



College of Journalism

Located just nine miles from the nation's capital and 30 miles from the bustling commercial port of Baltimore, the College of Journalism is one of six comprehensive journalism schools in the 10 states stretching from New York to Virginia — the nation's most populous region. But the college has a lot more than geography going for it. The National Assessment of Journalism Education by the Freedom Forum Media Studies Center at Columbia University designated the college one of "Eleven Exemplary Journalism Schools" nationwide: those that surpass others in criteria including teaching, research, facilities and job placement.

College of Library and Information Services

The College of Library and Information Services offers degree programs for individuals interested in careers in information services and management. At the master's level, students may specialize in several fields, including archival studies, geographic information systems, health information services, school library media services, and science and technology information systems.

College of Life Sciences

The College of Life Sciences offers educational opportunities for students in subject matters relating to living organisms and their interaction with one another and with the environment. Programs of study include those involving the most fundamental concepts of biological science and chemistry and the use of knowledge in daily life, as well as the application of economic and engineering principles in planning the improvement of life.

School of Public Affairs

The School of Public Affairs provides graduate-level, professional education to men and women interested in careers in public service. Five disciplines are emphasized: finance, statistics, economics, politics, and ethics. Students specialize in international security and economic policy, public sector financial management, environmental policy, or social policy.

Maryland, No Better Place To Be

Did You Know?

• Maryland has top 20 ranked programs in engineering, computer science, physics, journalism, business, art history, economics, criminology, mathematics, oceanography, astronomy, education, agricultural economics and others.

• The University Honors Program was selected as one of the nation's nine best in ARCO's Guide to Ivy League Programs at State School Prices.

• The university collaborates with more than 280 businesses through its Maryland Industrial Partnerships program. The university's incubator has spawned 20 new companies; three have been recognized as among the fastest growing in the state.

• Maryland is the only university in the southeast quadrant of the United States to have both engineering and business programs ranked in the top 25 by U.S. News and World Report. The College of Education also ranks in the top 25.

• Maryland is in the top three of non-historically black institutions in number of African-Americans receiving bachelor's degrees.

• In a 1995 study, the Department of Criminology and Criminal Justice was rated the highest quality research program in the nation by the Journal of Criminal Justice Education.

• The College of Journalism was selected as one of two sites in the U.S. for the Hubert H. Humphrey Fellowship Program, and named one of the nation's top communications programs by the Gannett Center for Media Studies.

• Last year, faculty researchers at Maryland were awarded more than $155 million in competitively funded research and development awards.

• No other university in the Mid-Atlantic Region has more top 20 graduate programs in computer, mathematical, physical sciences, and engineering disciplines than the University of Maryland, according to a recent analysis by the National Research Council.

• With more than 900 high technology firms in the three-county area of Montgomery, Prince George's and Frederick, the university has found abundant opportunity to extend its business and technology outreach programs to the region.

• The reputation of the School of Music was enhanced with the opening of the $100 million Clarice Smith Performing Arts Center.

More, Better Students Want To Go To Maryland

The University of Maryland projects another record-breaking year for the quality of admitted students. The number of applications, GPAs and SAT scores all were up from the same time last year.

For the last 10 years, the quality of students being admitted to the University of Maryland has risen steadily. Average GPAs for incoming freshmen have risen from just under 3.0 to a projected 3.69, SAT scores of the middle 50 percent have gone from 980-1,150 to a projected 1,170-1,340, and the number of students with SAT scores above 1,300 has increased from 234 to a projected 1,155.

The University of Maryland has the state's largest concentration of academically talented students, with more than one-third of them enrolled in the invitation-only Honors, Honors Humanities, College Park Scholar or Gemstone programs.

Why There's No Better Place

There is no better place to be than the University of Maryland. As Washingtonian magazine noted in its December, 1997 issue, "...kids are turning down schools like Princeton and Virginia to go to College Park." With its top-ranked academic programs, nationally recognized faculty, diverse population and lush 1,580-acre campus located between Washington, D.C., and Baltimore, Md., it's no wonder the University of Maryland is a sought-after destination for some of the state's — and the country's — best and brightest students.

Attracting them are more than 100 majors and some of the highest ranked programs in the country. For instance, in the latest U.S. News & World Report rankings, University of Maryland ranked 22nd among national public universities. Among graduate schools, the Clark School of Engineering tied for 17th nationally; the Robert H. Smith School of Business graduate program ranked 26th; the computer science Ph.D program in the College of Computer, Mathematical and Physical Sciences ranked 11th; the College of Education ranked 22nd; and the College of Library and Information Services ranked 14th. The College of Business also has been named one of the country's top business schools for entrepreneurs by Success magazine.

For exceptional students seeking an exceptional education at the University of Maryland, College Park, there are a number of programs designed to enrich the learning experience. Among them are the Honors Program, ranked among the nine best in the country by ARCO's Guide to Ivy League Programs at State School Prices; College Park Scholars, which encourages students who share common intellectual interests to live and study together in 10 specialty areas; and the Gemstone Program, which links student teams from engineering, the humanities, business and the physical sciences in a four-year research project.

Supporting the research needs of students and faculty are some of the country's best research facilities. In 1994, the largest, most technically advanced research archives in the world — National Archives II — moved to College Park. In addition, just outside of College Park are the Library of Congress, the Smithsonian Institution and the National Libraries of Agriculture and Medicine, among others. The university itself has the most comprehensive library system in the area.

High tech, engineering and service industries thrive in proximity to the campus, offering a wide spectrum of internship and work-study opportunities that only a major metropolitan area can provide. The Kennedy Center alone houses the National Symphony Orchestra, five performance stages, an opera company, and the American Film Institute. In Baltimore, one of the great ports of the world, the Inner Harbor has become a cultural magnet for thousands of tourists each year, offering the National Aquarium, the Maryland Science Center, and other attractions.

Whether your focus is the sciences or the humanities, a small town atmosphere or a metropolitan feel, the University of Maryland, College Park offers a wide range of educational and cultural opportunities. There is no better place to be than the University of Maryland, College Park.

Athletic Administration

Kathleen Worthington

Associate A.D./Internal Operations

Kathleen Worthington was named associate athletic director for internal operations in May 1999. She came to Maryland from Morehead State University, where she had served as associate A.D. since February 1998 after spending two years as an assistant athletic director.

At Maryland, Worthington is responsible for supervision of baseball, volleyball, women's basketball, women's gymnastics, men's and women's track, and men's and women's cross country. She also oversees the sports medicine and strength and conditioning units in addition to managing ACC and NCAA tournaments hosted by the university.

During her time at Morehead State, her primary focus was business operations, compliance, policy development, and strategic planning. Prior to Morehead State, Worthington spent two years as the assistant to the AD at the University of Wisconsin-LaCrosse.

She also has served as a marketing and media relations specialist and as director of athletics and community youth programs for Catholic Charities, Eastern Region, in New York state.

She earned her bachelor's degree in mass communications from the College of Notre Dame in Maryland in 1985. She earned a master's degree in public relations from Syracuse and a master's in athletics administration from Wisconsin-LaCrosse.

She was inducted into College of Notre Dame's Athletic Hall of Fame in 1997 and in 1999 was named an NCAA Leadership Fellow. In 1996, she earned the graduate student achievement award from UW-LaCrosse.

Academic Support & Career Development

The Department of Intercollegiate Athletics is committed to the academic success and career development of student athletes. In support of this commitment the department sponsors the Academic Support and Career Development Unit (ASCDU).

Mission

The mission of the unit is (1) to provide quality developmental programs and need based services that will enhance the opportunity to earn an undergraduate degree, (2) offer career development opportunities and (3) support the psychosocial growth of student athletes through special initiatives.

Staff

Nine full-time professionals, two graduate assistants, tutorial support staff and student associates comprise the unit's workforce. Assistant Director Anton Goff serves as the ASCDU liasion with the track and field team.

Anton Goff

ASCDU & The University

Primary academic advising is provided by professional advisors assigned to each student athlete by his or her home college, school or department. The ASCDU counselors serve as an important support network that coordinates and implements transitional and developmental programs to address the academic and career development needs of student athletes. In cooperation with the Office of Records and Registration, ASCDU monitors academic progress of student athletes to assure that NCAA, ACC, and University rules and regulations are met.

Location

The primary ASCDU unit is conveniently located on the ground floor of Cole Field House where student athletes have access to various resources and services. Each academic counselor has private office space in order to insure meeting privacy. A study table room is staffed by proctors and arranged to maximize student focus and concentration. The facility also houses a tutorial room devoted to servicing the learning needs of student athletes. The staff maintains two computer resource laboratories with a total of 40 personal computers containing up-to-date software packages. In addition, ASCDU coordinates a laptop computer service that provides each team access to laptop computers while traveling to away competitions.

There is also a satellite computer room in the Gossett Football Team House. Three of the nine ASCDU professionals are currently housed in the building.

The Future

In the summer of 2002, the $124 million Comcast Center will become the new home of the ASCDU unit. A 7,000 square foot wing has been developed to replace the current space in Cole Field House. The new home of ASCDU will be conveniently located on the floor where offices of coaches for 20 sports will also be placed. The close proximity was designed to facilitate communication among ASCDU staff, coaches and student athletes. The satellite computer lab in the Gossett Football Team House will continue to operate. In addition, a building addition of an auditorium which will seat 140 is currently planned for the Gossett Football Team House. That space will be available for use by the entire athletic program, including ASCDU.

Academic courses, programs and services offered by ASCDU include the following:

- Prospective student-athlete orientation
- Academic counseling
- NCAA academic eligibility monitoring
- Academic enrichment and career development presentations and workshops
- Accredited tutorial support
- Mentor program
- EDCP 108-J (Career decision making and planning)
- EDCP 108-K (College learning strategies and skills)
- EDCP 108-O (First-year transitions to the university)

Undergraduate Programs of Study

A. JAMES CLARK SCHOOL OF ENGINEERING

Aerospace Engineering; Biological Resources Engineering; Chemical Engineering; Civil Engineering; Electrical Engineering; Engineering; Environmental Science and Policy; Fire Protection Engineering; Materials and Nuclear Engineering; Mechanical Engineering

COLLEGE OF AGRICULTURE AND NATURAL RESOURCES

Agricultural Sciences; Agriculture/Veterinary (combined); Agricultural and Resource Economics; Agronomy; Animal and Avian Sciences; Biological Resources Engineering; Horticulture; Landscape Architecture; Natural Resources Management Program; Nutrition and Food Science

SCHOOL OF ARCHITECTURE

COLLEGE OF ARTS AND HUMANITIES

American Studies; Art; Art History and Archeology; Asian and East European Languages and Cultures; Chinese; Classics; Dance; English Language and Literature; French Language and Literature; Germanic Studies; History; Italian Language and Literature; Japanese; Jewish Studies; Linguistics; Music; Philosophy; Romance Languages, Russian Area Studies; Russian Language and Literature; Spanish and Portuguese Languages and Literature; Speech Communication; Theatre; Women's Studies

COLLEGE OF BEHAVIORAL AND SOCIAL SCIENCES

Afro-American Studies; Anthropology; Criminology and Criminal Justice; Economics; Environmental Science and Policy; Geography; Government and Politics; Hearing and Speech Sciences; Psychology; Sociology

COLLEGE OF BUSINESS AND MANAGEMENT

Accounting; Business/Law; Finance; General Business and Management; Logistics and Transportation; Management and Organization, Management Science and Statistics; Marketing; Personnel and Labor Relations; Production Management; Transportation, Business and Public Policy

COLLEGE OF COMPUTER, MATHEMATICAL AND PHYSICAL SCIENCES

Astronomy; Computer Science, Environmental Science and Policy; Geology; Mathematics; Physical Sciences; Physics

COLLEGE OF EDUCATION

Early Childhood Education; Elementary Education; Human Development; Secondary Education; Art; English; Foreign Language; Mathematics; Music; Science, Social Studies; Speech and English; Theatre and English; Special Education

COLLEGE OF HEALTH AND HUMAN PERFORMANCE

Family Studies; Health Education, Kinesiology

COLLEGE OF JOURNALISM

COLLEGE OF LIFE SCIENCES

Biochemistry; Biological Sciences; Chemistry; Entomology; Environmental Science and Policy, Microbiology, Plant Biology, Zoology

UNDERGRADUATE STUDIES

College Park Scholars; Division of Letters and Sciences, Individual Studies Program; Law and Health Professions; Pre-Dental Hygiene, Pre-Dentistry, Pre-Law, Pre-Medical Technology, Pre-Medicine, Pre-Nursing, Pre-Optometry, Pre-Osteopathic Medicine, Pre-Pharmacy, Pre-Physical Therapy; Pre-Podiatric Medicine, University Honors Program

CAMPUS-WIDE CERTIFICATES

Afro-American Studies, East Asian Studies; Latin-American Studies; Science, Technology, and Society

Strength & Conditioning

In the highly competitive collegiate track and field world in the new decade, the off-the-field preparation of the student-athlete is a critical component to the success of any Division I program. Dwight Galt, Maryland's director of strength and conditioning, believes strongly that a solid off-field training program can dramatically improve levels of performance, as well as significantly reduce the chance of injury. Corliss White serves as the track and field team's strength and conditioning coach. The benefit of performing structured strength and power training throughout the entire year has allowed the Terps to reach new levels in physical development.

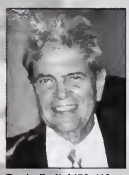
Corliss White

At the University of Maryland, the maximal development of athleticism is the primary goal of the strength and conditioning program. To accomplish this requires more than just strength and power training in the weight room. Speed improvement, agility, flexibility, conditioning, plyometrics, and nutrition also play critical roles. The Terps' strength staff places substantial emphasis on all these areas, with special attention on the improvement of speed potential. Galt and his staff employ a wide range of state-of-the-art training methods to assist in enhancing all aspects of speed development.

The Terrapins are fortunate to train in one of the premier weight training facilities in the United States. Conveniently located in the Gossett Team House, this facility has excellent aesthetic appeal, with two magnificent skylights and large windows overlooking the playing field at Byrd Stadium. The Terps' spacious weight room includes 7,200 square feet of functional floor space, with two elevated offices that are easily accessible to the training floor.

Terrapin Club

The Terrapin Club is composed of alumni, friends and fans of University of Maryland athletics. Your Terrapin Club contribution provides annual athletic scholarship support to our student-athletes. As a Terrapin Club member, you will enjoy the camaraderie and fellowship unique to this organization. Supporting the Club is a great way to stay connected with the University of Maryland, the state's flagship institution. Most importantly, you will feel the pride and satisfaction in providing a University of Maryland student-athlete with a quality education.



Erwin Raffel '58, '61
Terrapin Club

Your donation is vital. The Department of Intercollegiate Athletics operates without significant university funding and receives no state appropriations or tax dollars for operational expenses. We are challenged to fund the 269 full scholarships presently offered and, in the future, to fund the maximum number of scholarships allowed by the NCAA for our 25 sports. We cannot reach this goal without your participation.

How Do I Get Involved?

Direct gifts are the most common way of contributing. They are made in the form of cash, stock, checks or credit card (Visa, Mastercard, American Express or Discover). For your convenience, a personal checking account can be debited a set amount every month, or you may make your credit card contribution on-line at www.terrapinclub.org.

In many cases, corporate matching gifts may be used to make your Terrapin Club contribution. Please contact your employer to see if you are eligible for a matching gift program.

How Much Should I Contribute?

The Terrapin Club is composed of the following levels of membership, with benefits varying by giving level.

Recent Graduate	$25 (year 1 after graduation)
Recent Graduate	$75 (year 2 after graduation)
Silver	$125 - $249
Silver 250	$250 - $599
Gold	$600 - $1,199
Diamondback	$1,200 - $1,999
Super Terrapin	$2,000 - $4,999
Coaches Club	$5,000 - $9,999
Top Terp	$10,000 or More

Still Have Questions?

Call the Terrapin Club at (301) 314-7020 or (800) 653-7667, or refer to our website at www.terrapinclub.org.

Executive Director

Julie Potter '96
Assistant Director

Success Breeds Success...

"As a scholarship athlete, I was provided with a platform of opportunities ... a chance to make a difference ... Maryland athletics gave me that and more..."

— Renaldo Nehemiah, Track '81
Member, U.S. Track and Field Hall of Fame
Terrapin Club Board of Directors

"Receiving a scholarship was, in itself, an honor; but more important, it allowed me to spend valuable time participating in internships that prepared me for my career, instead of working my way through school. That scholarship is still paying dividends, years after my time in College Park."

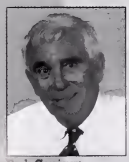
— Bonnie Bernstein, Gymnastics '92
CBS Sports Broadcaster

Major Gift Fundraising

Maryland Educational Foundation 'Endowments for the Future'

The primary mission of the Maryland Educational Foundation (MEF) is to provide scholarship endowment funds in support of the athletic department's annual athletic scholarship expenses. By supporting talented, deserving student-athletes, donors ensure that our legacy of excellence will continue and grow. For more than 50 years, the MEF has provided financial support for Maryland athletics and is an important part of the department's gift-giving program. The vision of the MEF is to raise enough dollars through private gifts to build an endowment capable of permanently funding many of the university's scholarships now being awarded.

Cheryl Harrison
Director,
Dev. for Major Gifts



Dick Corrigan
Director, Major Gifts

What is an endowment? An endowment is a gift in which the principal is held in perpetuity, with only the income used (in part or whole) for scholarships. The MEF invites you to discuss gifts such as cash, securities, real estate, insurance, personal property, life income, gifts of pooled income funds, charitable remainder trusts, charitable gift annuities, wills and bequests. An endowment gift is truly a significant investment in the future of Maryland athletics. Contact Dick Corrigan or Cheryl Harrison at 301-314-7020 if you would like more information.

Building On A Winning Tradition

As the Terps prepare to compete in the 21st century, Maryland athletics must ensure that its program is able to remain competitive by recruiting high caliber players and maintaining and attracting loyal fans. To do so, as part of Bold Vision • Bright Future: The Campaign for the University of Maryland, the Department of Intercollegiate Athletics has entered into a historic effort to increase private financial support for the construction and renovation of athletic facilities.

At the center of the plan for our future is a new, state-of-the-art arena and home for Maryland Athletics, the Comcast Center. The Building Partners Campaign is the Department of Intercollegiate Athletics' effort to raise $20 million in outright gifts toward the construction of the Comcast Center. Quality facilities attract outstanding student-athletes, great crowds and a tremendous amount of energy and excitement. The competition site for men's and women's basketball, wrestling, volleyball and gymnastics, Comcast Center will be the centerpiece of intercollegiate athletics at the University of Maryland. The venue will be the best in the Atlantic Coast Conference.

By participating in the Building Partners Campaign, athletic benefactors have a chance to make a historic impact on the future of the University of Maryland and its athletics program. The Building Partners Campaign offers donors a unique opportunity to permanently link their names to the tradition of Terrapin athletics. Donors who make contributions of $25,000 to $1 million or more are entitled to permanent seat assignments in Comcast Center, in recognition of the substantial investment they have made in Maryland Athletics with their Building Partner Campaign contributions.

To obtain additional information on supporting the Building Partners Campaign, contact Cheryl Harrison or Dick Corrigan at 301-314-7020 or toll free at 800-653-7667 or visit our website at www.terrapinclub.org.

The M Club "Athletes Helping Athletes"

The M Club was founded in 1923 by a group of former University of Maryland athletes led by Dr. H.C. "Curley" Byrd to encourage excellence in athletics. It is one of the oldest and most respected letterwinner clubs in the country with an organization of more than 4,200 former Maryland varsity athletes.

David Diehl
Executive Director

The M Club goals are to help achieve the very best overall academic and athletic program for the 25 varsity teams, to aid the athletes in making positive contributions to the community, to obtain and maintain funds for awards and scholarships, and to cultivate social contact and good sportsmanship among the wearers of the "M."

Membership participation, through the payment of annual dues, helps build the scholarship endowment fund and support student-athletes' awards and recognition efforts. Members receive the monthly athletic department publication (TerpTalk) for information about the current teams and news about their former teammates.

In addition, active members receive information about, and discounts for, various M Club activities. Many benefits are intangible, including the satisfaction of having lettered at a great university and being a part of a unique and exclusive organization.

University of Maryland letterwinners interested in the M Club should call David Diehl at (301) 314-5372 or Dotti Warren at (301) 314-7020, or visit www.umd-mclub.org.

Remember the M Club, "Athletes Helping Athletes."

Media Guidelines

Credentials: Media and photographer credentials for events at Maryland's Kehoe Track & Field Facility may be obtained by working press, radio and television by writing or calling Dan Rosso in the Maryland Athletic Media Relations Office, 1112 Cole Field House, College Park, MD 20741-0295. All requests should be submitted at least 48 hours prior to the event by phoning the Media Relations Office at (301) 314-1483. Since space is limited, accommodations are on a priority basis: daily newspapers and wire services, originating radio and television stations, national weekly or monthly publications, electronic media outlets, local and regional television crews. Priority is granted to members of the media who cover Maryland athletics on a regular basis, and to visiting media members. Photo passes will be issued only to accredited photographers on assignment.

Services: The Media Relations Office will provide complete statistics at the conclusion of every home event. Programs containing rosters and event notes on each team will be provided for the working media.

Fax Machine: The Media Relations Office has one facsimile machine, located in Room 1112 of Cole Field House, which is available upon request. The fax number is (301) 314-9094.

Mediateamlink.com: Releases, statistics and other sports information from all ACC schools as well as other conferences and institutions around the country are available by accessing www.mediateamlink.com. You can have updated documents delivered directly to your e-mail and/or fax machine the moment they are updated. You can also view documents on-line. MediaTeamlink is FREE to all accredited media. Log on to www.mediateamlink.com if you do not already have an account, and click the "Sign Up Here" button and complete the short form.

Terrapin Fan Phone: For up-to-date reports, comments from coaches, and other Maryland athletic department information, phone the Terrapin Fan Phone at (301) 314-TERP.

Terps on the Web: For up-to-date game stories, statistics, schedules and results, and other Maryland athletic department information, please locate www. umterps.com on the World Wide Web.
